

Apollo Vanguard is shining a light on the path to provide public entities with transparent and lower cost prescription medication by combining two different organizations.

ArrayRx is a government backed Public PBM with intergovernmental agreements to serve any public organization in the country.

Apollo Vanguard is a private firm with access to a licensed Canadian pharmacy operating a mail-order program on Specialty Name Brand Prescriptions.

By deploying the Canadian Prescription Outsource Program, Apollo Vanguard would help your organization establish an interface to identify eligible members for lower cost prescriptions and to communicate the voluntary mail-order program. This service would maximize substantial savings for the public organization as well as its members.

Prescription Drugs

Where does your healthcare dollar go?

Within the three major Health Care Claims in any health care plan, doctors, hospitals and prescriptions, the one claim that takes up most of the claim dollars are prescriptions.

Canadian Prescription Outsource Program (POP)

- 1. All other countries have their government set Rx prices.**
- 2. POP is open with no formulary.**
- 3. POP has similar global pricing of 30% to 70% lower cost.**
- 4. POP is one layer away from Rx Manufacturer.**
- 5. POP is not a reseller. Straight Pricing.**
- 6. POP are Service Agreements. Set anytime.**
- 7. POP can offer Zero Cost Option to Members.**
- 8. POP low price improves Rx Adherence.**
- 9. POP low cost stabilizes or decreases stop-loss rates.**
- 10. POP increases cash-flow. Improves annual budget.**

Specialty Name Brand Prescriptions

**Offered as a Canadian Prescription Outsource Program
(POP)
with 30% to 70% savings**
